

Progress 8 Score

Strategies which have been discussed by HT/SLT/ALGB and agreed are as follows:

- Appointing the best teachers possible given economic restraints and short supply.
- Supporting and re-enforcing expectation to deliver high quality lessons to all students - the school has devised "The Arnewood Lesson" a model of excellence which staff are expected to meet.
- To review the curriculum so that in the longer term it is more flexible in meeting the needs of each cohort.

NB - The Arnewood School's P8 alone is -0.27. With smaller year groups and higher proportions in alternate provision it must be accepted that as we work closely with partner schools whose outcomes are not solely academic, outcomes will be lower than the national.
